CINCINNATI COUNTRY DAY SCHOOL

NOTICE

Dear Members of the CCDS Community,

It's was a memorable week at Country Day: a snow day and Covid vaccines (dose 1) for the faculty and staff.

Weekly Case Report

Below is information detailing on-site Covid cases by division since last Friday's communication.

> **Upper School**
> A 12th grade student left school on February 10 since a member of the student's household received a positive Covid test result. The student was tested the same day (Feb. 10) and received a positive test result today (Feb. 12). Based on contact tracing, it was determined that one teacher and at least three students were in close contact with the affected individual. All were instructed to quarantine for 10 days.

Our thoughts are with the affected individual during their isolation period.

We have updated Country Day's Covid case dashboard to reflect recent cases and quarantine numbers.

As a reminder, **students and staff must stay home when anyone in their household is tested** for Covid-19. Staying home helps minimize quarantine numbers in the event the test result is positive. When someone in your house is tested for Covid, please inform your child's division head or email covid19safety@countryday.net.

Stay well and stay safe,
The Rapid Response Team
