

COUNTRY DAY

CONNECTED

Good morning from Indiana—the sun is coming up but the storms were unbelievable last evening. I hope this finds your family safe.

Because of the electricity and internet outages across the city, we will have a very flexible MS schedule today with deadlines and expectations. As always, the safety of our families and teachers is the #1 priority. Students should check TEAMS for updates from teachers—many synchronous classes will not be happening and if they are—they will be recorded. Those students and teachers who can participate can but those affected are not required. The MS was having a Catch Up Homework Weekend and this will allow students to complete the assignments at their leisure over the long weekend.

Stay safe—and don't hesitate to reach out with questions.
