

# COUNTRY DAY

## CONNECTED

Dear US Families,

Here we are. It's somehow the last broadcast of the school year. This morning, I helped to return students' belongings from their lockers, tomorrow we'll have the closing of school ceremony and the Awards Ceremony, and this Saturday we'll celebrate our seniors in a new kind of graduation ceremony.

As we wrap up the year, I want to thank you for your patience, your support, your enthusiasm, and your spirit. Country Day's response to the Covid-19 shut down was amazing. Our students kept learning. Our teachers adapted and pivoted. Group work continued. Art classes held critiques. Advisories had lunches. We came together and made community mean something. On long nights and harried days, your emails of thanks and your affirmations that your kids were still learning and your comparisons to other schools (hey, sometimes even the best of us can get a little petty about the competition) kept us going. Even today as you picked up your kids' belongings (and in some cases apologized for the messes your kids left) you were saying thanks. THANK YOU.

Here is some information that you likely want for the next couple of days.
